Baking

Supernatural[®]

Modern bakers prefer to avoid controversial ingredients like artificial dyes and unsustainable palm oil, and I struggled to find healthier alternatives for "colorful" ingredients like sprinkles. That's why I started Supernatural, the first complete line of better-for-you sprinkles, plant-based food colors, allergy-friendly frostings and more. Our products are whimsical, delicious, and loved by moms. We're a women-owned and led company from NYC with manufacturing in NJ. – Carmel Hagen, CEO.

100% vivid, plant-based colors

Colors from spirulina, beets, turmeric and more

Free from artificial dyes, soy, gluten, confectioner's glaze, GMO's; Top-9 free.

Vegan and Certified Kosher

American-made with traceable sources

Recyclable packaging (Code 1)

The Backyard Food Company is an award winning specialty food manufacturer based in Rhode Island. Founded in 2014, The Backyard Food Company grew out of our backyard gardens after a cancer diagnosis forced us to reexamine the foods that we were putting in our bodies. What started as seeds in the ground has grown to over thirty products sold in over a thousand locations. By using only simple, real ingredients, The Backyard Food Company has become a quickly emerging brand in the specialty food industry.

Unique fruit flavors, perfect for charcuterie.

Bold label that stands out on the shelf

No HFCS – No Corn Syrup – No Preservatives - Just real ingredients

Award winning specialty foods – Whole Foods NA 2021 Supplier of the Year

Baking Fruit Spreads

Committed to quality and know-how since 1966, and located in the Southwest of France near Bordeaux, in a region famous for its orchards and gastronomy. For many years now, the company used to supply prestigious customers, delicatessen, and chefs across France and abroad. Favols has always selected noble raw materials to develop its recipes. Its specific cooking method at low temperatures under vacuum avoids caramelization, maintains the nutrients and taste, and preserves the qualities of fruit: natural fruit flavors, colors, and texture.

Made with carefully selected natural ingredients: 60% real fruits, lemon juice, and Cane sugar only

Sustainable Packaging

Prepared with respect for jam-making tradition and focused on authenticity

This jam has less sugar than most jams, creating a smooth and spreadable texture

Soom®

There's no place like the kitchen table to bring us together as a family. It was the one spot in the house where we could always agree on one thing: our passion for the foods we loved to make and share. A meal we enjoyed in a town tucked against the Mediterranean confirmed that the secret to bringing people together over good food could be a piece of cake. Literally! The ingredient that made the delicious difference in the dessert we shared that night was tahini. So we crafted the blend that could bring that taste to homes around the country.

Made with 100% premium sesame seeds

Silky, smooth creamy texture

High in protein and iron

Just like our flagship roasts, Breakout by Jailhouse is craft roasted in small batches in Queens, NY. Legends have it that the roastery is built on the site of an 18th-century jailhouse. We’ve been searching, but still haven’t found any records confirming this, but it’s our story and we’re sticking to it! BREAKOUT by Jailhouse brings out a new side of the coffee that you already know and love. We’ve reduced the price tag, NOT the flavor – our artisan blend of 100% specialty Arabica beans ensures that every cup is bold, uncompromised and delicious.

Breakfast Coffee

Deep Valley Coffee, located and roasted in Queens, New York prides itself on being the first and only all biodynamic coffee brand in the United States. Biodynamic farming practices include: Improving soil quality/fertility, minimal disruptive tilling, using herbal sprays, working in harmony with nature's animals and insects, natural compost practices, no GMO's etc. No chemicals ever. If it doesn't come from the farm, it can't be sprayed on the plants.

For those who care deeply about both the fate of the earth and the quality of the coffee in their cup, there's no better choice than Deep Valley.

Grown using regenerative practices, our coffee is fairly sourced from a quality-driven farm—a shaded single estate high in the mountains of Brazil.

NGUYEN

COFFEE SUPPLY

Nguyen (sounds like “nu-win”) Coffee Supply is an **award-winning Vietnamese coffee** company. We are a **woman-owned & Asian-owned** company. Vietnam is the **largest** producer of **robusta** coffee in the world and the second largest coffee producer globally, after Brazil. This means, people around the world already **love the flavor** of Vietnamese coffee (it just wasn’t transparent). By elevating Vietnamese coffee and its famed robusta bean, **we’re shining a spotlight** on robusta growing communities in every country. This leads to creating a more **diverse, inclusive & sustainable** coffee future. Everybody wins!

100% Vietnamese coffee

Direct trade coffee imported from family connections

No added sugar, flavors or ingredients

Robusta coffee has double the caffeine, double the antioxidants, and 60% less fats & sugars than arabica coffee

Robusta coffee supports sustainability; high caffeine = pest repellent, easier to grow, higher yield, resilient to rising temps

Thunder Island Coffee Roasters, L.L.C., located on the Shinnecock Indian Reservation in Southampton, New York, is a Native American owned and operated organic coffee roasting company.

We offer Specialty Grade Arabica coffee, grown in the high mountains of Central and South America at altitudes of 4,000 ft. and above. These elevations create the highly sought after SHB (Strictly Hard Bean) coffees – slower growth development, creating a nutrient dense coffee packed with flavor !!!!

Our goal to develop cooperative efforts to support the Indigenous family owned organic coffee farms of Central and South America, has lead us to the creation of our “Native to Native exchange”, forming a network of Native American commerce and employment for our local community and abroad.

We only roast 100% Arabica coffees

Each of the Thunder Island Coffees are named in reference to some of the original Native American tribes of Long Island.

We exist to create moments of joy with zero sugar candy. We have a relentless attitude that has been focused on making a difference in this world since 2008 through our delicious candy. We transitioned from Project 7, to JOYRIDE in 2022 because we wanted to create a new, trailblazing brand that is fun, bold and tests the candy boundaries. We are not a diabetic candy brand but have a reason to make candy that is better for people. We have an epidemic on our hands with the rise of Diabetes and the health issues that stem from it. People aren't going to give up candy – so let's make better versions for them

ZERO Sugar! Because sugar filled calories aren't good for anyone.

100% Vegan! Plant Based without the Funky Gelatin Stuff. Natural, real, gentle on the earth

Keto Friendly. Low net carb and packed with flavor.

Pre-biotic Fiber for Gut Health.

Nothing Artificial. Because we don't need it. We figured out how to make candy taste better than ever with real ingredients.

Bonjour! Our adventure began in 2004 in a tiny kitchen in Paris. We are driven by an obsession with French pastry, a love for high quality ingredients (especially fresh Butter!), and a passion for challenging convention. Our indulgent buttery shortbread cookies with chocolate ganache have been sold in France for over 15 years. In the USA, our goal is to bring together the best of American snacking and traditional French pastry. Our mission statement? Do what you love, Live with passion, Challenge conventional, Do for yourself, Join the community, make good products, Tell the truth, Have fun! (That's all!)

Premium shortbread made with pure butter and filled with chocolate ganache. According to European standards, our Cookie Squares are GMO-free!

Snackable puff pastry made with pure butter - bringing together the quintessential French pastry with the best of American snacking!

Renewal Mill is an award-winning, woman-owned, upcycled food company that fights climate change and food waste with gluten-free upcycled flours and delicious plant-based baking mixes & cookies. We take the nutritious pulp leftover when you make plant-based milks (like soy and oat) and turn it into flour that we sell directly and also use in our vegan dessert products. All product development is done by 5x James Beard Award-Winning cookbook author Alice Medrich.

Named a Top 10 Trend by Whole Foods (2023 & 2021)

Made with climate-friendly upcycled flours from Renewal Mill & upcycled vegan butter from Miyoko's Creamery

100% vegan & gluten-free

Steve & Andy's ORGANIC

THE ART OF CLEAN – INNOVATION & COMMITMENT TO QUALITY AND TASTE. Around 2012, New Yorkers Steve Marino & Andy Khiani were busy working in their highly successful makeup & fashion careers when they discovered something missing in the specialty market they so often perused. Their entrepreneur spirits kicked in and they decided to try their hand at creating truly nutritious, gluten-free treats made only with the best organic ingredients. But what excited them most was to craft products that were not just Organic & Gluten-Free-but also irresistibly delicious

What makes Tate's Bake Shop cookies so deeply delicious? It's something we call "The Bake Shop Way." It started when 11-year-old Kathleen King began baking cookies to sell at her parents' farm stand. Her love of baking and dedication to quality soon made her crisp, buttery cookies legendary in Southampton, and were the inspiration for what eventually became Tate's Bake Shop. While our Bake Shop remains the heart of the brand, our cookies are lovingly baked on Long Island and beyond. So enjoy one of our deeply delicious cookies and experience "The Bake Shop Way."

Tosi Snacks is a certified Women-Owned and family operated business. Providing gluten-free, plant protein, healthy, delicious snacks! Stefanie made it her mission to create the best gluten-free snacks that were both delicious and satisfying. We have created a nut-free, allergen-friendly, super craveable snack with organic puffed ancient grains, each serving offers 8 grams of plant protein and every bite is crunchy, yummy goodness. In addition, we have reduced our carbon footprint by removing the sleeve on every Tosi bar. For every order we receive, we plant native and diverse trees in Central America, ensuring the sustainable growth of local ecosystems while also supporting local communities.

ffups

FFUPs breaks the rules of what corn puffs can be, and it's about time someone did. We've pushed the puff to flavors beyond just cheese and our high-quality ingredients take puffs to their maximum potential. Eating FFUPs is about having a good time. Not experimenting with going vegan. Not settling for something made of quinoa or kale because they might save you a few calories. Snacks should taste good. Period. FFUPs: Premium puffs that taste good. Many flavors. No health claims. You're welcome.

When Gary Edell started making homemade potato chips in 2009, he never thought it would grow into a business. For years he would make his chips for friends, family, business associates, and whoever else wanted them. When his kids went off to college, he would send them packages filled with his delicious chips. Whenever his kids' friends would say, "these are AMAZING where did you get them?" the response was always "they're **My Dad's Chips!**" and the rest is history.

Vista Hermosa was born inside of Tacombi – a taqueria committed to sharing authentic Mexican taco culture. When we couldn't find tortillas that met our standards, we started making our own. Known today as Vista Hermosa, we craft a full line of Corn and Flour Tortillas, Totopos, and Frozen Burritos. We follow traditional processes from Mexico and use only a handful of simple ingredients. We source quality, non-GMO ingredients with no preservatives to uphold and celebrate the authentic flavors of Mexico.

Thick and crunchy texture, perfect for dipping

Et Oliva is a Mediterranean Food Brand that came out of what we lost during the COVID pandemic; a chance to connect with each other over food! That is why we established our brand; to help us all reconnect through the power of great food! It became our mission to produce True Aegean flavors, close to nature. Our products are inspired by the mezze style of dining, composed of small plates meant to stimulate appetite.

All of et Oliva products are made from all natural ingredients: no fillers - ever. Our products are a more flavorful and approachable alternative to other brands and will always leave you wanting one more bite.

Mandy and Joe Neuman founded Sloppy Mama’s BBQ in the summer of 2014. They set out to make the best BBQ they could with one goal in mind... making people happy. Sloppy Mama’s prides itself on bringing authentic American regional BBQ to the DC Metro area. Our Kansas City sauce is tomato based and fantastic on BBQ, steak, chicken, and seafood and as a dipping sauce for fries! Our Georgia Gold sauce is a mustard based sauce popular in the southeastern United States, fantastic on pork and everything you put on your grill to grilled cheese.

TRUE MADE FOODS

America's Basics Made Better - Irresistibly delicious, no sugar versions of your favorite condiments. Sweetened only with fruit & veggies. Our founder, Abe, knew ketchup has more sugar than ice cream, but his kids poured it all over their food anyway. So, he decided to make a better one. Abe went back to how his mom and grandma cooked and sweetened his ketchup with nothing but real fruits and veggies. His picky eaters loves it! He then partnered with legendary Pitmaster Ed Mitchell to craft high flavor, low / no sugar barbecue sauces. Together, they've returned American barbecue to its real food roots.

MOTHER IN LAW'S

Mother-in-Law's began with a mission to share a delicious, authentic, handcrafted small batch kimchi using the finest natural ingredients. As an avid food and wine lover, founder, Lauryn Chun was inspired by the beauty of Korea's handcrafted tradition of kimchi as a fine food that belongs in the ranks of fine fermented foods like wine, cheese and beer traditions. Each line of MIL products is distinguished by a unique time-honored process - rich and saucy long-fermented. Mother in Law's is the authentic, clean label gochujang with modern brand appeal and the most depth of flavor.

Gochugaru- Thick paste with balanced spicy-sweet flavor with earthy notes

Garlic Sauce -Fresh garlic and ginger flavors can be used as dipping sauce, glaze, or marinade

Gochugaru-has a unique balance of earthiness, spiciness and complexity, along with medium level heat and coarsely ground texture, makes it a versatile spice to use in a variety of everyday dishes

Meals Pasta Sauces

Established in 1915, KYKNOS is one of the most loved and recognized brands in Greece.

Our mission is to grow by evolving into a more socially conscious food company offering natural, plant-based, tasty products in an ethical, sustainable way throughout the food chain from farmers to consumers.

To achieve this, we commit to closely cooperate with farmers, the scientific community, and available technologies (i.e. smart farming) to improve and increase the production of agricultural products, while delivering a more sustainable planet to the next generation.

Made from 100% selected Greek summer tomatoes, harvested at the appropriate maturity stage. It adds the flavor of fresh tomato to every dish!

THE MEATBALL

EST SHOP™ 2010

The Meatball Shop serves the best meatballs and sauces, and now we are bringing it to you at home. Just like in our restaurants, our flavors are built from scratch, and we use the exact same blend of sustainable ingredients. From day one, we've worked to responsibly source the best local and all-natural ingredients we're able to get our hands on. We keep it simple with our high-quality recipes. Our flavors are built through a nice, long, low-heat simmer. Real flavor. No added sugar. Nothing artificial.

Meals Oils

As a family run business for three decades, we understand the power and importance of food in our daily lives, and in our interactions with those around us. Like our valued consumers, we recognize that our food choices have a significant impact on our health, culture, environment, and local & regional economies. We procure only the best quality sourced products from around the world, cultivating alliances with farmers and manufacturers that promote sustainability in the environment and health for people. Since the start of our journey, our passion remains unchanged in our humble quest to make the world a better, healthier and environmentally friendlier place.

BIRDIE'S

PIMENTO * CHEESE

Flirting with convention, especially when it comes to one of the South's most beloved condiments, can be a dicey proposition. For a certain set in the South, there are rules associated with pimento cheese, what goes in, but most notably, what does not. Birdie's Pimento Cheese does not subscribe to that notion. At Birdie's, we've mastered the classic and then made it our own. After all, more flavors of pimento cheese only yield more occasions for it to grace your table, which is a tradition we can all get behind.

Use as a spread or a dip.

Made small batches

What makes us really excited is creating something that brings happiness and well-being. To create something that people intuitively enjoy, that feels good and does good. We believe that food is an amazing medium for inspiring joy, connection and environmental change. We're idealistic about organic agriculture. To us, it is without a single scoop of doubt, the most responsible and earth-friendly way to grow our food. In short, organic agriculture is about working with nature instead of fighting it.

Little Sesame

Little Sesame’s quality-over-everything approach is making a splash on grocery shelves. Founded in a 500 sq basement pop up in 2016, Little Sesame launched a grocery ready line of hummus in June 2021. The recipe was created by founders and chefs Nick Wiseman & Ronen Tenne in their flagship restaurant in Washington, DC. The hummus is made with 100% regeneratively farmed chickpeas grown by farmer Casey Bailey under the big sky in Montana. It’s freshly spun and super smooth, layered with rich tahini and brightened with freshly squeezed lemon juice.

MOTHER IN LAW'S

Mother In Law's marries the culinary art of authentic Korean traditions with a contemporary freshness. By using clean, simple ingredients and upholding a time-honored process rooted in heritage, we craft delicious foods with the highest quality. Founded in 2009, our founder, Lauryn Chun, set out to meet the need for an elevated and authentic kimchi at shelf. Quickly becoming the pioneer brand of the category, she knew kimchi belonged in the ranks of fine fermented foods. Everyday Kimchi undergoes a quick, cold-fermentation process that results in bright and delicious Korean flavors. Bite-size and probiotic-rich make them an easy addition to everyday meals.

MOTHER IN LAW'S

Mother-in-Law's began with a mission to share a delicious, authentic, handcrafted small batch kimchi using the finest natural ingredients. As an avid food and wine lover, founder, Lauryn Chun was inspired by the beauty of Korea's handcrafted tradition of kimchi as a fine food that belongs in the ranks of fine fermented foods like wine, cheese and beer traditions. Each line of MIL products is distinguished by a unique time-honored process - rich and saucy long-fermented.

Balanced in flavor and tradition, this kimchi provides bright, complex depth.

At Veggie Confetti, we believe that **BOLD COLOR + BIG FLAVOR** are the two defining elements that will make your meal one that looks as good as it tastes. In an effort to find a simple, delicious, and health-conscious way to keep her meals exciting, Kelsey began experimenting with pickled vegetables at home.

Before she knew it, she was sprinkling them on everything...as if they were Veggie*Confetti! Kelsey saw her colorful and tangy pickled vegetables as an avenue to inspire others to eat the rainbow and make every meal celebration-worthy!

Convenient – At home pickling can take days to months, but we’ve done the work already, perfected the recipe, and put them in easy-to-open resealable pouches.

Made with real veggies + simple ingredients

Vegan, Gluten-free, No Preservatives

Upcycled! We use “seconds” vegetables – veggies that have been passed over for not looking perfect, but are perfect for slicing and pickling!

MASIENDA

We're on a mission to elevate the everyday tortilla through a return to its origins. By sourcing the best quality heirloom corn from smallholder farmers, our tortillas offer superior flavor and aroma.

Made from whole-kernel heirloom corn from Mexico that is gently cooked and slowly steeped in slaked lime water for 12 hours

Nixtamalization imparts calcium and activates the essential amino acids and vitamin B3 found naturally in each kernel

Two ingredients: Single-origin corn, slaked lime. ZERO preservatives or fillers

Shelf life frozen: 2 years from date of production. Shelf life refrigerated: 15 days refrigerated from date of thaw

Homestead Creamery is a locally-owned dairy processing plant nestled among the beautiful Blue Ridge Mountains in Burnt Chimney, Virginia. With dreams of preserving the family farm for future generations and marketing products directly to consumers, two local dairy farmers combined efforts, opening its doors for business in January of 2001! Today, Homestead Creamery has grown to support six local family farms. Each farm is dedicated to the health and happiness of the cows and the quality of the products that are produced for the consumers. We are excited to share with you “The Way Milk and Ice Cream Should Taste.”

MyFOREST foods

Mycelium. “My-cee-lee-yummm.” We grow it (from gourmet mushroom roots) inside our special, vertical farm to make whole-cut meatless bacon! After harvest, we slice our mycelium into whole-cut strips the same way you'd slice pork belly.

The taste and texture are remarkable — unlike any plant-based food we’ve tried. (That’s cause it’s fungi.) At MyForest Foods, we believe mycelium is a satisfying solution to feed our planet. **From the forest, to your fork, for the future.**

Made with 100% pure mushroom mycelium

Savory flavor & whole-cut texture

Free from the Top-9 allergens

No nitrates, binders, fillers or preservatives

What makes us really excited is creating something that brings happiness and well-being. To create something that people intuitively enjoy, that feels good and does good. We believe that food is an amazing medium for inspiring joy, connection and environmental change. We're idealistic about organic agriculture. To us, it is without a single scoop of doubt, the most responsible and earth-friendly way to grow our food. In short, organic agriculture is about working with nature instead of fighting it.

COCONUT CULT

The Coconut Cult delivers gut health that tastes and feels good. Our probiotic-rich yogurt was born from the desire to find a natural, non-dairy means of restoring the gut and digestive health through super probiotic, living foods. The very first iterations of our yogurt began with our Founder, Noah, fermenting high-quality probiotics strains with coconuts out of his Mom's kitchen. What resulted was a clean label, plant-based yogurt unlike any other on the market; one that offers the functional benefits of a daily probiotic with a decadent, mousse-like texture.

50Bn CFUS of probiotics per oz – take as a daily probiotic supplement

No added sugars, gums, starches, refined sugars, oils or flavors

Packaged in glass to reduce single use packaging and protect living cultures

HARMLESS HARVEST®

Our Mission is to farm, craft and share remarkable coconut products that create a natural demand for sustainable farming, better business practices and community impact. Harmless Harvest Yogurt is made with individually quick-frozen coconut meat, hand scooped from the same coconuts we harvest our Harmless Coconut Water. Using this closer-to-whole-food ingredient gives our yogurt a thick, smooth, dairy yogurt-like texture.

Dairy Yogurt

Yogurt has been a staple of health and longevity in Bulgaria for centuries - Lactobacillus bulgaricus, the live culture responsible for making all yogurts is native to Bulgaria. Bulgarian yogurt has a distinctly tart taste and is low in sugar.

Trimona Drinkable Yogurt is one of very few A2A2 yogurt products in national distribution. Why A2A2? Its more nutritious, and people who might experience indigestion with A1 dairy (which is most dairy) – don't. There's a lot of solid science behind it.

Refrigerated Coffee and Tea

Dairy Refr Coffee and Tea

We are a specialty coffee company that takes your good taste seriously. Began in 2002 when the founder opened a micro-roastery in a converted potting shed in Oakland, CA. He won over fans by delivering just-roasted beans from the back of his station wagon. Twenty years later Blue Bottle has a Global network of over 100 cafes in and around San Francisco, Los Angeles, NY, DC, Boston, and Asia.

Thought and care throughout the process to highlight and keep the integrity of the coffee. Inspired by our café favorites and packaged so consumers can experience the simple deliciousness. Sourced from our direct farmer relationships, roasted in small batches, extracted using our own brewing facility.

Organic ingredients

Extracted slowly at our own brewing facility - Brewed ~16 hours and filtered 3 times. Never heated

Directly sourced with our farmer relationships

No sugar added (excluding a hint of sugar in NOLA)

Dairy Refr Coffee and Tea

Neighbors and self-professed coffee geeks, these two were hell-bent on creating the best tasting cold-brew coffee available. After months of experimenting with different formulas and brewing methods, the pair finally found the perfect combination of brewing time and temperature, using a blend of highly select, meticulously air roasted, certified organic Arabica beans. What they ended up producing was the best coffee they had ever tasted—an intensely bold, super smooth cold-brew with a buzz as big as Texas.

Reinforcing our ‘Always Organic’ mission is important to Chameleon’s point of difference. Keeping our “Top 2%” state shows customers just how great our quality is. Chameleon sources the highest quality beans available, meeting ‘specialty grade’ designation which accounts for 10-15% of the world’s coffee.

Small but mighty, this little 32oz jug makes up to 10 cups of coffee, showing customers the value they get when they buy Chameleon.

POP & BOTTLE

At Pop & Bottle, we believe your daily coffee ritual should be purposeful, nourishing, and gratifying. Because it's not just coffee, it's a moment of indulgence and an act of self-care! Our plant-based coffee and tea lattes are made with fair trade, whole food, and functional ingredients that truly make you feel as good as they taste. We make our own almond milk and oat milk in-house, use organic dates for a touch of sweetness, and never compromise on quality

Organic + dairy-free

Responsibly sourced – direct trade coffee & fair-trade ingredients

No refined sugars, sweetened lightly with dates

Made with simple, whole ingredients – no junky extras

**Empower
the People.**

Rather than just a product with a mission, REBBL is a story of a mission - A cause that was looking for a company. Through our partnership with Not for Sale we're working to co-create a future without human trafficking. REBBL has donated over \$2m to NFS to support regions of the world that are vulnerable to exploitation - by investing in social and environmental initiatives we help empower communities, preventing their vulnerability to trafficking in the first place.

Refrigerated Juices

For years, Europeans have coveted black currants for their natural vitamins, antioxidants and delicious flavor. Black currants contain four times the Vitamin C of oranges, more antioxidants than blueberries and are rich in iron, potassium and organic acids. Connecticut Currant brings you its *Currant Affair* black currant juice in three flavors (black currant, black currant/blueberry and black currant/cranberry) so you too can enjoy the health benefits and savor the unique and delicious flavor!

Made from juice concentrate and natural flavors

Contains natural cane sugar and pure filtered water

sofresco

It all started 80 years ago in Portugal when the Gilman Family (present in the business to this day) founded their company and started a path of business innovation, establishing Sofresco in the USA, in 2019. Our name says it all: we produce 100% natural fresh juices and shots, adding functional benefits to support your daily needs. Our high-pressure processing technology allows us to extend the shelf life of our recipes, guaranteeing clean-label products, and dismissing the use of any preservatives. Our products make achieving your wellness goals effortless.

Cold-pressed juices and shots made with locally sourced real fruits and veggies. We use HPP (High-Pressure Processing) within 24 hours from production to retain freshness and maximize shelf-life.

Never from concentrate.

No added water, sugars, or preservatives

All our products are gluten-free and vegan, with the exception of the Collagen Shot.

Our packaging is 100% recyclable and our shots bottles are made from 50% recycled plastic.

bear's fruit

Bear's Fruit makes gut health products that are good for you - and taste ridiculously good. We believe food should be handcrafted, not hand-wavy. We keep things simple by highlighting the taste and purity of our ingredients, which is why both Bear's Fruit kombucha & probiotic sparkling water are made with 100% organic fruit & fresh herbs - no sugary juices, flavors or any other weird stuff. It's not as easy or cheap to make, but the taste is worth the effort.

We are committed to handcrafting the absolute best tasting and most Earth-friendly kombucha around. Sustainably handcrafted in the Blue Ridge Mountains of Virginia, our kombucha is renowned for its clean, crisp finish. Our wide appeal is largely due to our proprietary process that minimizes the strong vinegar flavor often found in other kombuchas. Made with all-natural, 100% organic ingredients and containing live probiotics, Blue Ridge Bucha is third-party verified non-alcoholic, making it a healthy (and delicious) beverage option for all ages.

Flavored with the juices of real fruits and herbs (and no added sugar)

Vegan, gluten free, raw, and unpasteurized (180-day shelf life when kept in cold storage)

Contains live probiotics for good gut health and improved immunity

HEALTH-ADE KOMBUCHA

We're giving the world a healthier gut. Health-Ade was founded in 2012 by a husband, a wife and best friend in a true farmer's market start-up story. We had a small credit card and a big dream: to make the best-tasting, highest quality kombucha you could buy.

Bigger. Better. And bursting with belly-loving benefits! Meet the newest member of the Health-Ade family: 48oz bottles of our most-loved flavors.

A bubbly fermented tea packed with living probiotics & detoxifying acids to promote feeling good from the inside out

Simple organic ingredients brewed together to create a variety of delicious flavors

No artificial flavors or sweeteners – just cold-pressed juice from organic produce

Dairy Refr Functional Beverage

In 2012 Jordan started KOR shots with the idea that the wellness shots he made at home daily should be available where you pick up your groceries - with their freshness intact. We still squeeze and crush ingredients ourselves to this day! We maximize the health benefits of every shot so every organic ingredient we use is sourced intentionally, there for a reason and delivers the real health benefits bodies need. With KOR, it's your health, your way, every day.

KOR Bottles are made with Prevented Ocean Plastic™

Each shot has a clear wellness function

No added sugar

Dairy Refr Functional Beverage

When our founders declined their acceptances into medical school, they set out on a mission to help people have a better “first option” than a medicine cabinet for wellness. Lumen is about helping people be more proactive with their health, all while making a positive impact on the planet. That’s why we source from regenerative farms as much as possible, going beyond certified organic. Together, we can leave the world a better place than when we came into it.

mon fe fo

Since 2014, MonfeFo has been making the highest quality, most potent, cold-pressed organic shots. We began in our kitchen hand delivering to local bodegas in the Brooklyn area growing store by store. MonfeFo is now manufactured in California by fifth generation farmers. We ensure that every shot is from the freshest produce available. Our shots are root forward, allowing for potency and versatility within use. Our roots are sourced from organic farms in Peru and Hawaii. And all of our shots are sold in glass bottles. MonfeFo allows root consumption to be easy, delicious and sustainable. Cheers and feel good.

sofresco

It all started 80 years ago in Portugal when the Gilman Family (present in the business to this day) founded their company and started a path of business innovation, establishing Sofresco in the USA, in 2019. Our name says it all: we produce 100% natural fresh juices and shots, adding functional benefits to support your daily needs. Our high-pressure processing technology allows us to extend the shelf life of our recipes, guaranteeing clean-label products, and dismissing the use of any preservatives. Our products make achieving your wellness goals effortless.

Cold-pressed juices and shots made with locally sourced real fruits and veggies. We use HPP (High-Pressure Processing) within 24 hours from production to retain freshness and maximize shelf-life.

Never from concentrate.

No added water, sugars, or preservatives

All our products are gluten-free and vegan, with the exception of the Collagen Shot.

Our packaging is 100% recyclable and our shots bottles are made from 50% recycled plastic.

Dairy Refr Functional Beverage

Sunwink is a female-founded plant-based beverage company, focused on the power of superfoods for better gut health, stress management, and immune support. Founder Eliza Ganesh began the company after being diagnosed with an autoimmune disease and using superfoods to support her health. We believe people are at their healthiest and happiest when plants are a part of their daily diets. Every Sunwink is made with whole plants and real ingredients. No preservatives. No additives or artificial flavors. To put it plainly – at Sunwink, every ingredient is sourced from the Earth.

Each tonic bottle comes with the equivalent of over 4,000 mg of functional superfoods!

No junk, just plants! We only use real ingredients. No artificial flavors. Lemon juice instead of citric acid.

No fake sweeteners, stevia, or monk fruit. Only maple syrup!

Only 25-60 calories per bottle.

The original and market-leading line of craft cocktail mixers for whiskey, founded in New York City 10 years ago. Each mixer is handcrafted from fresh and natural ingredients into a flavor designed to pair perfect with bourbon or rye whiskey. We also make a Sriracha Margarita which has a cult following among Sriracha hot sauce fans. Whiskey has been the largest growth driver in the spirits market for 15 years, and yet most mixer sets are still filled with only Bloody Mary and Margarita mixers. Close a major assortment gap in your mixer set and drive significant incremental growth with Cocktail Crate’s whiskey mixers

Beverage SS Functional Beverages

Our mission at Goldthread has always been to bring plants and people together. We are brewed with superherbs, spices, adaptogens, and other potent botanical treasures that offer real benefits and make you feel great. Our plant medicine starts with the living plants, and the people that have cultivated them for centuries. Our founder William Siff has travelled the world to source the most pure and potent medicinal plants and brew them into shots that you can feel. Farm to bottle is not just a slogan for us, it's a way of life.

Craft brewed with medicinal plants and adaptogens. Sources ingredients from small farming communities around the world who have preserved the most traditional methods

Sweet, Spiced, and Refreshingly Nice, Lemonback is a new beverage experience that will ignite your taste buds and spice up your day! Lemonback was created to provide a beverage with a kick that did not have any caffeine, so we mixed two of my favorite flavors together, hot sauce and Lemonade, that have the right balance that tickle your taste buds. Life threw us lemons, we gave it a kick, and now we want to thank you for squeezing in the time to try Lemonback! Creating this spicy lemonade has been a dream, so feel free to join us in opening a can!

SEVEN

Seven Teas was founded in 2014 in Santa Monica, CA by brothers Jeremy and Josh (aka The Brew Bros) who share the love of adventure, travel, and tea. Each tea brings the unique benefits, flavors, colors and aromas of its place of origin. Seven strongly believes in celebrating global ancient traditions and honoring Mother Earth’s natural ingredients. Through their travels, Josh & Jeremy learned to ethically source certified organic, Fair Trade whole leaf teas to craft each tea using ancient brewing methods using only mineral spring water.

Iconic and approachable flavors inspired by traditions from all over the USA. *We call them a "Road Trip in Every Sip".*

Our “70-Calorie Classics”, are slightly sweet and only have 18g of Sugar

Sodas & Sparkling Juices

Beverage Sodas, Sparkling Juices

RUBY

Finally, a juicy organic soda, big on flavor and big on benefits (1000 and counting). No artificial additives and no added sweeteners: that's the power of hibiscus. Hibiscus is one flower with one thousand benefits, but the one we're proudest of is our unbelievably clean ingredient panel. We only use organic ingredients, and our functional benefits naturally derive from the hibiscus flower. We never add cane sugar or non-nutritive sweeteners to our beverages, as we're trying to fight the fact that sugar-y beverages are the key drive of over consumption of added sugar in the American daily diet.

1000+ antioxidants.

Electrolytes: potassium + magnesium.

No added sugars, preservatives, flavoring or artificial additives.

Plant based and vegan.

Keto-friendly.

Kid-friendly too.

Bread

Frozen Ambient Bread

We spent our time in the kitchen, sharing recipes and enjoying meals. Centuries of tradition led us to the challah we bake — the fresh ingredients, the hand-crafted braids, and a desire to make the best product possible.

At Jack Bakes, we know that tradition still plays a role, but that must be modernized. That's why our Challah uses cage-free eggs, non-GMO ingredients and no preservatives. We strive to make a better product so you can create new traditions of your own. We're baking for the next generation.

Frozen Breakfast

We spent our time in the kitchen, sharing recipes and enjoying meals. Centuries of tradition led us to the challah we bake — the fresh ingredients, the hand-crafted braids, and a desire to make the best product possible.

At Jack Bakes, we know that tradition still plays a role, but that must be modernized. That's why our Challah uses cage-free eggs, non-GMO ingredients and no preservatives. We strive to make a better product so you can create new traditions of your own. We're baking for the next generation.

STONE & SKILLET

We feel there is something magical about a warm, doughy English Muffin. In 2013, we followed our dreams, recruited help from our friend Dan, and created a recipe in our Boston apartment. By shaping the dough on a granite stone countertop and griddling to perfection on a cast-iron skillet, it only felt right to name our company Stone & Skillet. We hope you taste the love from our family to yours. Enjoy!

Kyle, Cam, Nick & the Meekins Family

Family owned, self-manufactured bakery, SQF Certified

Handmade and griddled on an iron skillet

No added sugar or synthetic preservatives

Our skillet style hashes are unlike anything else on the market...flavorful, healthy, and locally sourced! We use only real, natural ingredients (e.g. sweet potatoes, butternut squash, lump crab, and pork chorizo) and pair them with delicious flavor profiles (e.g. Moroccan Magic and Garam Masala seasonings). Our frozen hash bowls are easy to make...Just tear open a pouch and cook it in your skillet in 4 minutes or less.

Made with real, natural ingredients

Naturally gluten free and paleo friendly.

Vegan and meat free options available

Products come in a retail ready case – just tear open the top and it goes right on shelf

Can be made in skillet, air fryer, or microwave in just 5 minutes

Frozen Desserts

Founder & Veteran, Hannah Pollack, and her husband, Xavier Meers, both professional chefs, met in the kitchen & bonded over their love for spreading joy through food. During a 5 year restaurant run together, Hannah created the first Nightingale ice cream sandwich as a menu dessert option. Gaining almost instant popularity, Hannah & Xavier were soon filling ice cream sandwich orders for markets, restaurants and events all over town. Shortly thereafter, they left the restaurant kitchen behind to fully embark on their new venture—one born from a love of their culinary crafts, classic desserts & each other.

Our story is simple. We wanted ice cream that wasn't basic. It needed to reflect who we were; bold, unique, and a little unexpected. The only problem? It didn't exist. We turned classic flavors into modern favorites, alongside other women founders who shared the same radical ambitions as us. From our small beginnings, with broken-down ice cream trucks in LA & NYC, through today, Coolhaus is still fusing unexpected flavor and unapologetic attitude into everything we do. We strive to create a more awesome premium ice cream experience for millions of people that do things differently!

Since 1932, Crescent Ridge Dairy has been bottling fresh and local milk in glass bottles on a 44 acre farm in Sharon, MA. Now 3rd generation family owned and operated, Crescent Ridge has always been dedicated to providing the freshest New England milk. Working with a single CT partner farm, Crescent Ridge milk is never skimmed and contains 20% more fat than other whole milks. The numerous awards for our milk and dairy plant shine a light on our team's dedication to the freshest and best milk possible.

Frozen Desserts

Four friends challenged each other to create the best ice cream shop in the world. We travelled the globe in our search and after years of effort, we lovingly present to you New City Microcreamery ice cream! Massachusetts milk is steeped in flavor with whole ingredients at our downtown Hudson, MA location. When the taste has permeated every drop, we flash freeze it into ice cream with liquid nitrogen. The end result is the smoothest, creamiest, most flavorful frozen delight.

Scratch Made. Locally sourced dairy from Massachusetts

A minimum of 16.5% butterfat

Liquid Nitrogen used for the freezing process, creamiest texture, and best flavor capture

Packaging containers are made with 34% Post-Consumer Fiber

Founder & Veteran, Hannah Pollack, and her husband, Xavier Meers, both professional chefs, met in the kitchen & bonded over their love for spreading joy through food. During a 5 year restaurant run together, Hannah created the first Nightingale ice cream sandwich as a menu dessert option. Gaining almost instant popularity, Hannah & Xavier were soon filling ice cream sandwich orders for markets, restaurants and events all over town. Shortly thereafter, they left the restaurant kitchen behind to fully embark on their new venture—one born from a love of their culinary crafts, classic desserts & each other.

At Noona's, we've found ice cream to inspire joy, connection and change. We created our Asian American line of ice cream products with a whimsical and playful palette, inspired by the need for creating bigger and more inclusive shelves in the ice cream aisle of the stores we shop in. We are a small but mighty and diverse team that is woman of color owned and proud to have the reputation of pioneering Asian American flavors in the mainstream market. Founded in 2016, our flavors have been and still are unique and unlike anything else in the market. Our story and attitude speak to the younger generation while also excite the minds of older generations. Noona's is here to reflect the faces, flavors and culture of America now and tomorrow while honoring our roots.

Made with dairy from pasture-raised cows.

No artificial colors or flavors, no corn syrup, no hormones, no antibiotics, organic and direct-trade where it matters

Van Leeuwen

Van Leeuwen started out of an ice cream truck in 2008 in Brooklyn NY and slowly brought our reimagined American classic ice cream flavors to grocery stores nationwide and have opened more than 40+ scoop shops. We strive to make ultra premium ice cream from simple ingredients while maintaining our mission...“To make good ice cream that makes you feel good, because a life without anything good is bad!”

Rich French style and creamy texture comes from high butterfat content. Ingredients come from premium sources like pistachios from Sicily, berries from small farms, tea from Rishi Tea.

We have a flavor for everyone!

Van Leeuwen

Van Leeuwen started out of an ice cream truck in 2008 in Brooklyn NY and slowly brought our reimagined American classic ice cream flavors to grocery stores nationwide and have opened more than 40+ scoop shops. We strive to make ultra premium ice cream from simple ingredients while maintaining our mission... “To make good ice cream that makes you feel good, because a life without anything good is bad!”

Rich French style and creamy texture comes from high butterfat content. Thick fair-trade high quality chocolate coating featuring vegan and dairy options.

Same simple ingredients as our pints such as milk, eggs, cream, oat milk, and cocoa butter that come from premium sources like berries from small farms.

Entrees

We are a certified LGBT-owned, artisan bread-turned-frozen-grilled-cheese manufacturer in Baltimore, MD. Our adoring farmers market customers used to take our bread home and come back the next week, telling us about the amazing grilled cheeses they made with it – so we made our own! Sourdough Grilled Cheese is a restaurant-quality, heat-and-eat grilled cheese, focused on sophisticated older consumers who recognize good quality but don't want to cook for one. The sourdough bread, which we make from scratch, is friendly for people with diabetes as well as those with gluten sensitivity – due to its long fermentation process. A Friendly Bread prioritizes high wages and benefits, and a safe environment for our diligent and passionate employees.

We make our own sourdough bread by hand. Sourdough has prebiotics, and is friendly to people with diabetes or gluten sensitivity

Clean ingredients, including high-quality cheeses. We pickle our own jalapenos, avoiding preservatives and dyes

Packaged in partially recycled, recyclable material

JUST US — FOODS —

We do things differently. We make our products fresh, in Boston. We hand-pick all of our ingredients to ensure the highest quality before we add it into each and every one of our recipes. This falafel is perfect for a snack or family meal. Add it to a salad, put in a pita, dip in tahini or hummus. Easy to bake or air fry.

Made from scratch using sprouted chickpeas, fresh parsley, cilantro, onions, garlic and spices.

Great in the air fryer or pan fried.

Vegan and Gluten Free

What makes us really excited is creating something that brings happiness and well-being. To create something that people intuitively enjoy, that feels good and does good. We believe that food is an amazing medium for inspiring joy, connection and environmental change. We're idealistic about organic agriculture. To us, it is without a single scoop of doubt, the most responsible and earth-friendly way to grow our food. In short, organic agriculture is about working with nature instead of fighting it.

Created by Chef Ming Tsai.

Frozen, convenient to cook and take on the go. Handheld Pockets there is a variety of flavors that the consumer is familiar with.

In 2016, Co-founder Roya Shadravan had discovered she had a brain tumor. Luckily she survived the operation with no harmful symptoms. The event changed her and her partner Kristy Lam's lives. We became extra conscious about the food we ate, and it's health benefits. We found it challenging to find convenient, international cuisine that was also healthy. As a result, we created Mulan Dumpling. We put our heart and soul into making variety of delicious dumplings with fresh and natural ingredients.

Female owned company who cares about health and humanity.

100% Fresh and Natural ingredients.

Authentic Asian flavors. Our new plant-based dumplings are 100% vegan.

Vista Hermosa was born inside of Tacombi – a taqueria committed to sharing authentic Mexican taco culture. When we couldn’t find tortillas that met our standards, we started making our own. Known today as Vista Hermosa, we craft a full line of Corn and Flour Tortillas, Totopos, and Frozen Burritos. We follow traditional processes from Mexico and use only a handful of simple ingredients. We source quality, non-GMO ingredients with no preservatives to uphold and celebrate the authentic flavors of Mexico.

So what's the secret ingredient (besides love, of course!) in our Dare To Be Different crusts, crisps, and gnocchis? It's 100% natural, nutrient-rich cauliflower and broccoli. We updated our favorite family recipes to make them healthier, lighter, and more nutritious. All our recipes are Keto-friendly and Kosher, so you can feel great about a delicious meal that won't weigh you down. We love the way cauliflower and broccoli crisp up, the reduced carbs, and delicious richer flavor. We think you will, too!

Frozen Pizzas

We spent our time in the kitchen, sharing recipes and enjoying meals. Centuries of tradition led us to the challah we bake — the fresh ingredients, the hand-crafted braids, and a desire to make the best product possible.

At Jack Bakes, we know that tradition still plays a role, but that must be modernized. That's why our Challah uses cage-free eggs, non-GMO ingredients and no preservatives. We strive to make a better product so you can create new traditions of your own. We're baking for the next generation.

Sustainably raised in the crystal-clear waters of New Zealand’s Marlborough Sounds, Regal King Salmon is known for its incredible flavor, color, texture, and healthy omega 3 fatty acids. Regal King Salmon is the rarest & highest quality species of salmon in the world; only 0.7% of the world’s salmon is King Salmon.

Our Cold Smoked Slices are traditionally cured, smoked at a low temperature in aromatic wood, then thin sliced for divine flavor and velvety texture that melts in your mouth. Ideal for delicate finger foods where taste, texture and visual impact are important. Our Hot Smoked Portions are slowly roasted over aromatic wood for a fragrant infusion of smoky aromas and sea salt, with a luxuriously buttery taste. A delight to eat hot or cold, on its own or in pasta or side dishes.

Single Origin Producer – complete ownership of the entire supply chain ensuring quality, care, & traceability.
2% Salmon to 98% water volume.

We're on a mission to bring you 'the best fries you've ever had at home.' SPUDZ are restaurant-quality fries that are easy to make at home, right in your oven or air fryer! We don't take short-cuts and keep our ingredient list simple. Just potatoes, oil, spices. That's it! We're bringing the very same fries that got famous at our food trucks and restaurants right to your home. Once you try SPUDZ there's no going back to *normal* frozen fries or the other guys. Try them, and you'll agree!

Made with simple ingredients: just potatoes, oil, and spices.

No Preservatives or additives.

Seasoned, restaurant-quality fries in bright packaging.

The only frozen fry with a see-through Window.
