There's no place like the kitchen table to bring us together as a family. It was the one spot in the house where we could always agree on one thing: our passion for the foods we loved to make and share. A meal we enjoyed in a town tucked against the Mediterranean confirmed that the secret to bringing people together over good food could be a piece of cake. Literally! The ingredient that made the delicious difference in the dessert we shared that night was tahini. So we crafted the blend that could bring that taste to homes around the country.

We started our juice journey in farmers markets 15 years ago with a purpose. Judy our founder is a Type 1 Diabetic and she wanted to make juices that were Real with no shortcuts. Our juices are 100% Natural. It's like having a fresh cup of juice every morning, without all the work. Just our fruits and vegetables, washed and squeezed. Remember whatever is in season is what we do. Juices can be sweet or citrusy, depending on the time of the year and where the fruit or vegetable is grown. That's how you know its real juice, how Mother Nature intended. Our company is woman owned with a commitment to making juices that benefit our health and well being.

Cabu is the latte reimagined and the fusion of the world's two favorite ingredients – coffee and chocolate. We blend the creamy part of the cacao bean with bold cold brew to create a uniquely delicious and velvety smooth latte experience. Cabu's first pour didn't happen on an assembly line or in a café. We started on a tricycle in small batches, with real conversations and real people. We listened, we learned, we refined. Now that same latte is ready for more hands.

Subtle notes of chocolate and a distinctly smooth texture create an entirely new latte experience

Every sip delivers the same premium café quality you'd expect from a freshly made latte

First of its kind; there's simply nothing like Cabu on the market

From the kitchen to the farmers market, to stores nationwide—meet Cove, the first-ever zero-sugar, organic, full-flavor soda packed with 1 billion probiotics. Founded by two brothers in 2017, Cove started with a simple idea: ditch the sugar, keep the flavor. Growing up, soda was a rare treat, tied to our most cherished memories, and though we outgrew our soda fixation, the nostalgic craving remained. Tired of sugary drinks, we trusted our gut and created a soda that's as functional as it is delicious. Join us as we make way for a new generation of soda drinkers!

When Belgian chef Xavier came to Richmond, Virginia to open a restaurant, little did he know he'd meet his match in his meticulous and spunky Southern sous chef, Hannah. The two bonded over their love of cooking and really good food. Their love story was just the beginning, when Hannah started whipping up restaurant-quality ice cream sandwiches they knew they were onto something. Now the husband and wife team sandwich together their European roots, Southern charm and premium ice cream between freshly baked chewy cookies. Nightingale is proudly woman veteran-owned.
