COCONUT CULT

The Coconut Cult delivers gut health that tastes and feels good. Our probiotic-rich yogurt was born from the desire to find a natural, non-dairy means of restoring the gut and digestive health through super probiotic, living foods. The very first iterations of our yogurt began with our Founder, Noah, fermenting high-quality probiotics strains with coconuts out of his Mom’s kitchen. What resulted was a clean label, plant-based yogurt unlike any other on the market; one that offers the functional benefits of a daily probiotic with a decadent, mousse-like texture.

50Bn CFUS of probiotics per oz – take as a daily probiotic supplement

No added sugars, gums, starches, refined sugars, oils or flavors

Packaged in glass to reduce single use packaging and protect living cultures

Our unconventional, artisanal kombucha products have been handmade in Richmond, Virginia since 2019 by our visionary founder Jason Smith.

He's on a mission to rid the world of artificial, sugary sodas and replace them with freakishly delicious, healthier alternatives. Yeah, Bitchin' Boucha.

By crafting blended recipes and triple-filtering every batch, Jason hopes to make a raw kombucha that people will be drawn to try and keep coming back for more because their mind's blown.

Sustainably handcrafted in small batches, our bucha is renowned for its crisp, clean finish and superior taste. Its wide appeal is due to our proprietary process that makes Blue Ridge Bucha distinctly “less vinegary” than other kombuchas and refreshingly delicious. The bright colors and award-winning flavors are derived from real fruit juice; and our simple, but eye-catching labels are designed to reflect the purity of our ingredients while popping on the shelf.

sofresco

It all started 80 years ago in Portugal when the Gilman Family (present in the business to this day) founded their company and started a path of business innovation, establishing Sofresco in the USA, in 2019. Our name says it all: we produce 100% natural fresh juices and shots, adding functional benefits to support your daily needs. Our high-pressure processing technology allows us to extend the shelf life of our recipes, guaranteeing clean-label products, and dismissing the use of any preservatives. Our products make achieving your wellness goals effortless.

Cold-pressed juices and shots made with locally sourced real fruits and veggies. Never from concentrate.

No added water, sugars, or preservatives.

We use HPP (High-Pressure Processing) within 24 hours from production to retain freshness and maximize shelf-life.

All our products are gluten-free and vegan, with the exception of the Collagen Shot.

Our packaging is 100% recyclable and our shots bottles are made from 50% recycled plastic.

When Belgian chef Xavier came to Richmond, Virginia to open a restaurant, little did he know he'd meet his match in his meticulous and spunky Southern sous chef, Hannah. The two bonded over their love of cooking and really good food. Their love story was just the beginning, when Hannah started whipping up restaurant-quality ice cream sandwiches they knew they were onto something. Now the husband and wife team sandwich together their European roots, Southern charm and premium ice cream between freshly baked chewy cookies. Nightingale is proudly woman veteran-owned.
